CODEBOOK

How Government Reactions to Violence Worsen Social Welfare: Evidence from Peru (Sexton, Wellhausen and Findley)

Datafiles description

- Budget data come from the World Bank's BOOST program. Raw data available: http://boost.worldbank.org/country/peru
- Violence data are coded from Peru's Defensoria del Pueblo. Reports are available: http://www.defensoria.gob.pe/blog/tag/reporte-de-conflictos-sociales/
    - The relevant incidents are 'acciones de violencia subversiva' We include a dataset of extracted and coded incidents.
- Congressional debate data come from the Peru Congress's 'Diario de los Debates,' available: http://www.congreso.gob.pe/Diariodelosdebates/
- Health information is sourced from USAID's Demographic and Health Survey (DHS): https://dhsprogram.com/data/available-datasets.cfm
- LAPOP survey data for Peru are available: https://www.vanderbilt.edu/lapop/raw-data.php
- The Peruvian National Institute of Statistics (INEI) hosts basic demographic data: https://www.inei.gob.pe/estadisticas/indice-tematico/sociales/

1. **Data in swf-peru-ajps.dta Panel**

Variable Name	Source	Description
acute_under5_diarrhea_pc	Ministry of Environment (via INEI)	Number of cases of acute diarrhea in under-5 children per capita
acute_under5_respiratory_pc	Ministry of Environment (via INEI)	Number of cases of acute respiratory illness in under-5 children per capita
budget_mining	Defensoria	Number of mining conflict incidents during budget period
non_budget_mining	Defensoria	Number of mining conflict incidents during non budget period
non_mining	Defensoria	Number of non-mining, non-insurgent protest incidents
enviro_b	BOOST	Environment budget share (percent)
culture_b	BOOST	Culture budget share (percent)
def_b	BOOST	Defense budget share (percent)

def_s	BOOST	Defense spending share (percent)
health_b	BOOST	Health budget share (percent)
health_s	BOOST	Health spending share (percent)
socialservice_b	BOOST	Combined social services budget share (percent)
socialservice_s	BOOST	Combined social services spending share (percent)
deptcode		Department Code
deptname		Department Name
execution	BOOST	Department Government Budget Execution
execution_nodef	BOOST	Department Government Budget Execution (excluding defense)
execution_nohealth	BOOST	Department Government Budget Execution (excluding health)
gk_budget	Defensoria	Number of soldiers killed by insurgents during budget period
gk_budget2	Defensoria	Dummy for soldiers killed by insurgents during budget period (0=no; 1=yes)
gk_prebudget	Defensoria	Number of soldiers killed by insurgents during pre-budget period
gk_prebudget2	Defensoria	Dummy for soldiers killed by insurgents during pre-budget period (0=no; 1=yes)
gk_december	Defensoria	Number of soldiers killed by insurgents during December
health_usage_women	LAPOP	Share of women reporting usage of health facilities this year (LAPOP)
health_usage_women_highinc	LAPOP	Share of women in top quartile of income reporting usage of health facilities this year (LAPOP)
health_usage_women_lowinc	LAPOP	Share of women in bottom quartile income reporting usage of health facilities this year (LAPOP)
health_usage_men	LAPOP	Share of men reporting usage of health facilities this year (LAPOP)
health_facility_visit	DHS	Share of women reporting visit to health facilities this year (DHS)
licensed_postnatal	DHS	Share of births reporting postnatal care by licensed professional (DHS)
infant_mortality	DHS	Department infant mortality rate (WHO definition) using DHS data
year		Year

def_budget_mi		Multiply imputed defense budget
def_spent_mi		Multiply imputed defense spending
ln_pbi_pc	INEI	GDP per capita (log transformed)
population	INEI	Population
pop100k	INEI	Population (in 100k)
pride	LAPOP	Share expressing national pride (LAPOP)
problem_crime	LAPOP	Share reporting crime as a problem (LAPOP)
problem_security	LAPOP	Share reporting security as a problem (LAPOP)
problem_terrorism	LAPOP	Share reporting terrorism as a problem (LAPOP)
inc_vote_change	INEI	Change in vote share for legislative incumbent party 2006 to 2011
senderista	Defensoria	Department experienced any dissident attacks during time series (0=no; 1=yes)
distbudget	BOOST	Department budget (Soles)
high_def_bshare	BOOST	Dummy for above median defense budget share (0=no; 1=yes)

2. debate_attacks.dta: Data on Peruvian Congressional debates

Variable Name	Source	Description
Incidentdate	Defensoria	Date that the fatal attack took place
After		Dummy for session taking place after attack (0=no; 1=yes)
Year		Year
SessionDate	Congreso	Date of Congressional Session
CasualtiesfromSL	Congreso	Did the session mention soldiers killed in the Shining Path conflict; often referred to as the ``terrorists'' or ``narco-terrorists.'' (0=no; 1=yes)
Fundingformilitary	Congreso	Did the session mention funding for the military or defense more generally; often referred to as the ``armed forces'' or ``national defense.” (0=no; 1=yes)
numberkilled	Defensoria	How many soldier fatalities
ln_numberkilled	Defensoria	Log of soldier fatalities
id		id for session

3. attacks_list.dta: Information on attacks

Variable Name	Source	Description
lugar	Defensoria	Location
contenido	Defensoria	Description of attack
year	Defensoria	Year
month	Defensoria	Month
department	Defensoria	Department
date	Defensoria	Date
clash	Defensoria	Was this a violent incident (0=no; 1=yes)
propaganda	Defensoria	Was this a propaganda incident (0=no; 1=yes)
deptname	Defensoria	Department Name
numfatal	Defensoria	Number of Fatalities
numinjury	Defensoria	Number Injured
numgovkilled	Defensoria	Number of soldiers killed
numgovinjured	Defensoria	Number of soldiers injured
whoinitiated	Defensoria	Who initiated the attacks (0=rebels; 1=government; 2=unclear)
incidentviolent	Defensoria	Was it violent (0=no; 1=yes; 2= threat of violence)
numdetained	Defensoria	How many insurgents detained
additionalsource	Defensoria	Any additional sources?

4. hurdle.dta: Data for the hurdle model in the appendix

Variable Name	Source	Description
coef	exported estimates	Point estimate
se	exported estimates	Standard error
band	exported estimates	Positioning value for chart
